INDEPENDENT AUDITORS' REPORT

To the Board of Fire Commissioners of
Saratoga Fire Protection District
Saratoga, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, and each major fund of Saratoga Fire Protection District (the "District"), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, and each major fund of the Saratoga Fire Protection District, as of June 30, 2018, and the respective changes in financial position, and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management’s discussion and analysis, budgetary comparison schedule, and schedule of funding progress on pages 3 - 11, 37, and 39 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management’s responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated October 30, 2018, on our consideration of the Saratoga Fire Protection District’s internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the District’s internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Saratoga Fire Protection District’s internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS
(Required Supplementary Information)

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

This section of the Saratoga Fire Protection District (the "District") annual financial report presents a discussion and analysis of the District's financial performance during the fiscal year ended June 30, 2018. The District's financial performance is discussed and analysed within the context of the accompanying financial statements and disclosure following this section.

FINANCIAL HIGHLIGHTS

- The assets of the District exceeded liabilities at the close of the 2017-18 fiscal year by \$3,145,230 (*net position*). Of this amount, \$2,197,590 (*unrestricted net position*) may be used to meet ongoing obligations to citizens and creditors and \$947,640 is net investment in capital assets.
- The District's total net position increased by \$931,043 mainly due to increased property taxes received.
- As of June 30, 2018, the District's governmental funds reported combined ending fund balances of \$4,074,228, an increase of \$414,653 in comparison with the prior year. Approximately 81% of the combined fund balances, \$2,495,863, is available to meet the District's current and future needs (*unassigned fund balance*).
- At the end of the fiscal year, unassigned fund balance for the general fund was \$2,495,863 or 46% of total general fund expenditures.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: (1) **Government-wide** financial statements, (2) **Fund** financial statements, and (3) **Notes** to the financial statements. Required Supplementary Information is included in addition to the basic financial statements.

Government-wide Financial Statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all District assets, deferred outflow of resources, liabilities, and deferred inflow of resources, with the balance reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether or not the financial position of the District is improving or deteriorating.

The *statement of activities* presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods, such as revenues pertaining to uncollected taxes and expenses pertaining to earned but unused vacation and sick leave.

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

Both of these government-wide financial statements distinguish functions of the District that are principally supported by property taxes and assessments, and charges for services (*governmental activities*) from other functions that are intended to recover all or significant portion of costs through user fees and charges (*business-type activities*). The only governmental activity of the District is public protection. The business-type activity of the District is the Early Warning Alarm System (EWAS).

Fund Financial Statements

The fund financial statements are designed to report information about groupings of related accounts which are used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds and proprietary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements—i.e. most of the District's basic services are reported in governmental funds. These statements, however, focus on (1) how cash and other financial assets can readily be converted to available resources and (2) the balances left at year-end that are available for spending. Such information may be useful in determining what financial resources are available in the near future to finance the District's programs.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains several individual governmental funds organized according to their type (general, special revenue, and debt service). Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for the general and debt service, which are considered to be major funds. Data from the remaining governmental fund is in a single presentation.

The District adopts an annual appropriated budget for its general fund. A budgetary comparison statement has been provided for the general fund to demonstrate compliance with this budget.

Proprietary funds are generally used to account for services for which the District charges customers—either outside customers, or internal units or departments of the District. Proprietary funds provide the same type of information as shown in the government-wide financial statements, only in more detail. The District maintains one type of proprietary fund, the EWAS fund which is an enterprise fund.

Notes to the Financial Statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

Required Supplementary Information (other than MD&A)

The required supplementary information is presented concerning the District's budgetary comparison schedule. The District adopts an annual appropriated budget for its General Fund. A budgetary comparison statement has been provided for the General Fund to demonstrate compliance with this budget.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. For the District, assets exceeded liabilities by \$3,145,230 at the close of the current fiscal year.

	Net Position						Variance (%)
	Governmental Activities		Business-type Activities		Total		
	2018	2017	2018	2017	2018	2017	
Assets:							
Current assets	\$ 4,903,433	\$ 4,324,018	\$ (4,155)	\$ (11,097)	\$ 4,899,278	\$ 4,312,921	14 %
Capital assets, net	<u>5,562,346</u>	<u>5,658,531</u>	<u>-</u>	<u>-</u>	<u>5,562,346</u>	<u>5,658,531</u>	<u>(2)%</u>
Total assets	<u>10,465,779</u>	<u>9,982,549</u>	<u>(4,155)</u>	<u>(11,097)</u>	<u>10,461,624</u>	<u>9,971,452</u>	<u>5 %</u>

Long-term liabilities	<u>5,996,499</u>	<u>5,104,892</u>	<u>-</u>	<u>-</u>	<u>5,996,499</u>	<u>5,104,892</u>	<u>17 %</u>
Total liabilities	<u>7,314,670</u>	<u>6,172,724</u>	<u>1,724</u>	<u>957</u>	<u>7,316,394</u>	<u>6,173,681</u>	<u>19 %</u>
Net position:							
Net investment in capital assets	947,640	754,347	-	-	947,640	754,347	26 %
Unrestricted	<u>2,203,469</u>	<u>3,055,478</u>	<u>(5,879)</u>	<u>(12,054)</u>	<u>2,197,590</u>	<u>3,043,424</u>	<u>(28)%</u>
Total net position	<u>\$ 3,151,109</u>	<u>\$ 3,809,825</u>	<u>\$ (5,879)</u>	<u>\$ (12,054)</u>	<u>\$ 3,145,230</u>	<u>\$ 3,797,771</u>	<u>(17)%</u>

Analysis of Net Position

The largest portion of the District's total net position, \$2,203,469 or 70% reflects its unrestricted net position which may be used to meet the government's ongoing obligations to citizens and creditors.

The remaining balance of \$947,640 or 30% represents its net investment in capital assets (e.g. land, buildings, vehicles, equipment, and furniture and fixtures). Although the District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. The District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending.

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

At the end of the current fiscal year, the District reported positive balances in all categories of net position.

	Changes in Net Position						Variance (%)

Analysis of Changes in Net Position

The District's net position increased by \$931,043 during the current fiscal year. These increases are explained in the government and business-type activities discussion below.

Governmental activities. Governmental activities increased the District's net position by \$924,868 thereby accounting for 99% of the total growth in the net position of the District. Key elements of this increase are as follows:

- Property taxes increased by \$433,562 or 6% due to the increasing prices of homes being sold in the district resulting in an increase in the assessed valuation of the property sold.
- Interest income increased \$18,967 or 60% due to higher balances in the District's accounts.
- Public protection expenses increased by \$359,785 or 5% because the contract for fire protection services with Santa Clara County Fire is based on a percentage of property taxes received. Property taxes increased causing an increase in public protection expenses.
- Interest on long-term debt decreased by \$513,442 or 95%. This is due to a correction of the prior year's interest calculation.

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

Business-type activities. Business-type activities increased the District's net position by \$6,175 thereby accounting for a positive 1% of the total increase in the net position of the District. The key elements of this increase are the continuing effect of the changes in the ordinance that make certain alarm systems optional and allow for monitoring by private vendors for required systems.

FINANCIAL ANALYSIS OF THE DISTRICT'S FUNDS

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the District's financing requirements. In particular, unassigned fund balance may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year. Types of governmental funds reported by the District include the General, Special Revenue, and Debt Service Funds.

At June 30, 2018, the District's governmental funds reported combined ending fund balances of \$4,074,228 an increase of \$414,653 in comparison with the prior year. Approximately 81% of the combined ending fund balances, \$2,495,863, constitutes unassigned fund balance, which is available to meet the District's current and future needs.

The general fund is the chief operating fund of the District. As a measure of the general fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total general fund expenditures. At June 30, 2018, unassigned fund balance of the general fund was \$2,495,863 which is 99% of the total general fund balance of \$3,316,622 and 46% of the total general fund expenditures of \$7,204,310.

Revenues for governmental functions totalled \$8,129,883 in fiscal year 2017-2018, which represents an increase of \$443,725 or 6% from the previous fiscal year. Expenditures for governmental functions, totalling \$7,715,230, increased by \$362,826 or 5% from the previous fiscal year. In the fiscal year 2017-2018, revenues for governmental functions exceeded expenditures by \$414,653.

The following table presents the amount of revenues from various sources as well as increases or decreases from the prior year.

**Revenues Classified by Source
Governmental Funds**

	FY 2018		FY 2017		Increase/(Decrease)	
	Amount	% of Total	Amount	% of Total	Amount	% of Change
Property taxes	\$ 8,076,435	99.34 %	\$ 7,642,872	99.44 %	\$ 433,563	5.67 %
Use of money and property	53,373	0.66 %	43,286	0.56 %	10,087	23.30 %
Miscellaneous revenues	75	- %	-	- %	75	100.00 %
Total	\$ 8,129,883	100 %	\$ 7,686,158	100 %	\$ 443,725	577,925 %

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

The following provides an explanation of revenues by source that changed significantly over the prior year.

- Property taxes – increased due to an increase in the assessed valuation of properties that have been sold.
- Use of money and property – increased because the State returned over-collected ERAF shift funds.

The following table presents expenditures by function compared to prior year amounts.

<u>Expenditures by Function</u> <u>Governmental Funds</u>						
<u>Expenditures by function</u>	<u>FY 2018</u>		<u>FY 2017</u>		<u>Increase/(Decrease)</u>	
	<u>Amount</u>	<u>% of Total</u>	<u>Amount</u>	<u>% of Total</u>	<u>Amount</u>	<u>% of Change</u>
Public protection	\$ 7,018,607	90.97 %	\$ 6,646,972	90.41 %	\$ 371,635	5.59 %
Capital outlay	22,105	0.29 %	27,556	0.37 %	(5,451)	(19.78)%
Debt service - principal	289,478	3.75 %	285,600	3.88 %	3,878	1.36 %
Debt service - interest	<u>385,040</u>	<u>4.99 %</u>	<u>392,276</u>	<u>5.34 %</u>	<u>(7,236)</u>	<u>(1.84)%</u>
Total	<u>\$ 7,715,230</u>	<u>100 %</u>	<u>\$ 7,352,404</u>	<u>100 %</u>	<u>\$ 362,826</u>	<u>5 %</u>

The following provides an explanation of expenditures by function that changed significantly over the prior year.

- Public protection – increased because the contract for fire protection services with Santa Clara County Fire is based on a percentage of property taxes received. Property taxes increased causing an increase in public protection expenses.
- Debt service-principal – increased because a larger portion of each lease payable payment was allocated to principal.
- Debt service-interest – decreased because a larger portion of each lease payable payment was allocated to interest.

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

The current year excess of revenues and other financing sources over expenditures and other financing uses is presented below:

Statement of Revenues, Expenditures, and Changes in Fund Balances
Governmental Funds

	<u>Major Funds</u>		<u>Nonmajor Fund</u>	<u>Total</u>
	<u>General Fund</u>	<u>Debt Service Fund</u>	<u>Special Revenue Fund</u>	
Revenues	\$ 7,577,920	\$ 549,345	\$ 2,618	\$ 8,129,883
Expenditures	<u>(7,204,310)</u>	<u>(510,920)</u>	<u>-</u>	<u>(7,715,230)</u>
Net change in fund balances	373,610	38,425	2,618	414,653
Fund balances, beginning	<u>2,943,012</u>	<u>535,308</u>	<u>181,255</u>	<u>3,659,575</u>
Fund balances, ending	<u>\$ 3,316,622</u>	<u>\$ 573,733</u>	<u>\$ 183,873</u>	<u>\$ 4,074,228</u>

The fund balance in the District's general fund increased by \$373,610 during the fiscal year due to increase in property tax revenue.

Proprietary Funds

The District's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail.

The EWAS fund had unrestricted net position of negative \$5,879 at June 30, 2018. The total increase in net position for the EWAS fund is \$6,175 because of the continuing effect of the changes in the ordinance that make certain alarm systems optional and allow for monitoring by private vendors for required systems.

The following table shows actual revenues, expenses and results of operations for the current fiscal year and in comparison to the prior year:

	<u>Early Warning Alarm System</u>		
	<u>2018</u>	<u>2017</u>	<u>Increase / (Decrease)</u>
Operating revenues	\$ 111,271	\$ 124,193	(10)%
Operating expenses	<u>(105,096)</u>	<u>(130,816)</u>	<u>20 %</u>
Change in net position	<u>\$ 6,175</u>	<u>\$ (6,623)</u>	<u>193 %</u>

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

GENERAL FUND BUDGETARY HIGHLIGHTS

During the year, actual amounts available for appropriations were more than budgetary estimates by \$75,420. The majority of this amount is the negative variance of \$67,963 in property taxes due to the lack of inventory available. Actual charges to appropriations were less than budgetary estimates by \$314,008. The majority of this amount is the positive variance of \$188,895 capital outlay cost. The net effect of under realization of revenues and under-utilization of expenditures resulted in a positive variance of \$632,923, thus eliminating the need to draw from existing fund balance.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

The District's investment in capital assets for its governmental activities as of June 30, 2018, amounted to \$5,562,346 (net of accumulated depreciation). This investment in capital assets includes land, buildings, vehicles, equipment, and furniture and fixtures. The total decrease in the District's investment in capital assets for the current period was \$39,209 or 1%.

The main capital asset activity during the current fiscal year was

- Depreciation
- Building improvements

For government-wide financial statement presentation, all depreciable capital assets were depreciated from acquisition date to the end of the current fiscal year. Fund financial statements record capital asset purchases as expenditures.

Business-type activities have no capital assets. Capital assets for the governmental activities are presented below to illustrate changes from the prior year:

	<u>Governmental Activities</u>		Increase/ (Decrease)
	<u>2018</u>	<u>2017</u>	% of Change
Land	\$ 1,440,543	\$ 1,440,543	- %
Buildings	5,237,745	5,216,523	0.4 %
Vehicles	151,195	151,195	- %
Equipment	21,758	21,758	- %
Furniture and fixtures	<u>107,797</u>	<u>146,123</u>	<u>(26)%</u>
Total Cost	6,959,038	6,976,142	(0.2)%
Less: accumulated depreciation	<u>(1,396,692)</u>	<u>(1,317,611)</u>	<u>6 %</u>
Capital assets, net	<u>\$ 5,562,346</u>	<u>\$ 5,658,531</u>	<u>(2)%</u>

**SARATOGA FIRE PROTECTION DISTRICT
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2018**

Long-term debt

At June 30, 2018, the District had total long-term debt outstanding of \$6,302,060 as compared to \$5,104,892 from the prior year. This amount was comprised of \$2,951,159 of bonds payable (inclusive of \$207,894 due within one year), \$1,663,547 lease refunding payable (inclusive of \$98,207 due within one year), and \$1,687,354 of Net OPEB liability. During the year, payment of debt principal amounted to \$195,315 for bonds payable and \$94,163 for lease refunding payable; and an additional \$179,878 in Net OPEB Obligation was recognized.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

- The District anticipates property tax revenues to continue to increase slightly. While inventory will continue to be low, prices will continue to rise increasing assessed valuations and property taxes.
- Capital expenses anticipated in fiscal year 2018-19 include: painting the interior of the building, new landscaping and new flooring.

All of these factors were considered in preparing the District's budget for fiscal year 2018-19.

REQUESTS FOR INFORMATION

This financial report is designed to provide a general overview of the District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Saratoga Fire Protection District, 14380 Saratoga Avenue, Saratoga, California, 95070.

SARATOGA FIRE PROTECTION DISTRICT
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES - GOVERNMENTAL FUNDS TO THE
STATEMENT OF ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2018

Net change in fund balances - Total governmental funds		\$ 414,653
<p>Amounts reported for governmental activities in the statement of activities are different because:</p> <p>Governmental funds report capital outlay as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlays exceeded depreciation in the current period.</p>		
Expenditures for general capital assets, infrastructure, and other related capital assets acquisitions	22,105	
Less: current year depreciation	<u>(118,290)</u>	(96,185)
<p>Repayments of debt principal is an expenditure in the governmental funds, but the repayment reduces the long-term liabilities in the statement of net position.</p>		
Principal repayments		
Mortgage payable	94,163	
Bonds payable	<u>195,315</u>	289,478
<p>Interest in long-term debt in the statement of activities differs from the amount reported in the governmental funds because interest is recognized as an expenditure in the funds when it is due, and thus requiring the use of current financial resources. In the statement of activities, however, interest expense is recognized as the interest accrues, regardless of when it is due.</p>		
		137,044
<p>Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds.</p>		
Change in net OPEB obligation		<u>179,878</u>
Change in net position of governmental activities		<u>\$ 924,868</u>

**BASIC FINANCIAL STATEMENTS -
NOTES TO THE FINANCIAL STATEMENTS**

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 1: REPORTING ENTITY

Organization

The Saratoga Fire Protection District (the “District”) was organized on February 18, 1924 and operates under the provision of Part 2.7 of Division 12 of the Health and Safety Code (Sections 13801 through 13999). The District has been reorganized several times; the reorganization in 1962 was in accord with Health and Safety Code sections 140001 through 14306. The District is an independent special district.

The District provides fire protection services to approximately 12 square miles encompassing one-half of the City of Saratoga and sections of the unincorporated areas to the South. Approximately 20,000 people reside within the District's service area. Annexation of the Bohlman Road and Mt. Eden Road areas have been completed, adding approximately 2,729 acres to the District.

In July 2008, the District began a new contract for fire prevention services with Santa Clara County Fire Department (also known as Central Fire). Under the contract, all District safety employees became Santa Clara County personnel. Currently, the only District employee is a part-time business manager. The District owns the fire station at 14380 Saratoga Avenue. The fire station is maintained by Santa Clara County Fire Department.

To further serve the community, the District manages an Early Warning Alarm System (EWAS). The EWAS is a city mandated ordinance that requires monitored fire detection systems in certain homes. The ordinance was recently amended to reflect changes in technology.

District Officials

The District is governed by a three member Board of Fire Commissioners (the “Board”). Voters residing in the Fire District elect the Board for a four-year term. Membership on the Board is limited to residents living within the boundaries of the Saratoga Fire Protection District.

As of June 30, 2018, the Board of Fire Commissioners consisted of:

	<u>Term Expires November</u>
Joe Long, Chairman	2018
Ernest Kraule	2018
Eugene Zambetti	2020

The members of the Board of Fire Commissioners have the ultimate responsibility of ensuring the lawful and efficient operation of the District. It is their responsibility to ratify all annual budgets, expenditures, and to establish and/or ratify annual salaries, wage and benefits. The members of the Board set the official policy of the District, establish rules and regulation related to the operation of the District, and establish any ordinances required to enforce the Uniform Fire Code. It is the Board’s responsibility to provide fire, health, and safety services required in accord with established legislation.

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The basic financial statements of the District have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP) as applied to local governmental units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial principles. The most significant of the District's accounting policies are described below:

A. Basis of Presentation

Government-wide Financial Statements

The Statement of Net Position and Statement of Activities, displays information about the District. These statements include the financial activities of the overall government, except for fiduciary activities. Eliminations have been made to minimize the double counting of internal service fund activities. The District does not have fiduciary activities, nor internal service funds. Governmental activities are normally supported by property taxes and intergovernmental revenues.

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a service, program or department and are therefore clearly identifiable to a particular function. Program revenues would include charges paid by the recipients of goods or services offered by the programs, as well as grants and contributions that are restricted to meeting the operational or capital requirements of the programs. Revenues that are not classified as program revenues, including all kinds of taxes and interest and investment income, are presented as general revenues. The comparison of program revenues and direct expenses identifies the extent to which each program is self-financing or draws from the general revenues of the District.

When both restricted and unrestricted net positions are available, restricted resources are used only after the unrestricted resources are depleted.

Fund Financial Statements

Fund financial statements of the District are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into two major categories: governmental and proprietary. Separate statements are presented for each fund category. The emphasis of fund financial statements is on major governmental and enterprise funds rather than reporting funds by type. Each major fund is presented in a separate column. Nonmajor funds are aggregated and presented in a single column. The internal service fund is presented in a single column in the proprietary fund financial statements. The District does not have fiduciary nor internal service funds.

Proprietary fund *operating* revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. *Nonoperating revenues*, such as subsidies and investment earnings, result from nonexchange transactions or ancillary activities.

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

A. Basis of Presentation - Continued

Governmental Funds

The District reports the following major governmental funds:

- The *General Fund* is the primary operating fund of the District and is always classified as a major fund. It is used to account for all revenues and expenditures necessary to carry out basic governmental activities of the District that are not accounted for through other funds. For the District, the General Fund's primary activity is public protection.
- *Debt Service* is maintained to account for the accumulation of resources for, and the payment of long-term debt principal and interest. This is the General Obligation Bond fund.

The District reports the following nonmajor governmental fund:

- *Special Revenue* fund is used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specific purposes. This fund is the equipment maintenance fund.

Proprietary Fund

The District reports one proprietary fund, a major enterprise fund:

- *Early Warning Alarm System (EWAS)* is maintained to account for operations that are financed and operated in a manner similar to private business. The intent of the District is that the costs (expenses, including depreciation) of providing goods or services to the general public be financed or recovered primarily through user charges.

B. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe "which" transactions are recorded within the various financial statements. Basis of accounting refers to "when" transactions are recorded regardless of the measurement focus applied.

The government-wide and proprietary fund financial statements are prepared using the *economic resources measurement focus and the accrual basis of accounting*. This differs from the manner in which governmental fund financial statements are prepared. Therefore, governmental fund financial statements include a reconciliation with brief explanations to better identify the relationship between the government-wide financial statements and governmental fund financial statements.

The accounting objectives of the economic resources measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Fund equity is classified as net position.

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

B. Measurement Focus and Basis of Accounting - Continued

Under the *accrual basis of accounting*, revenues are recorded when earned and expenses are recorded at the time liabilities are incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place. Non-exchange transactions, in which the District gives (or receives) value without directly receiving (or giving) equal value in exchange, include property taxes. On an accrual basis, revenue from grants and donations is recognized in the fiscal year in which eligibility requirements have been satisfied.

The governmental fund financial statements are prepared using the *current financial resources measurement focus* and the *modified accrual basis of accounting*.

In the current financial resources measurement focus, only current financial assets and liabilities are generally included on the balance sheets. The operating statements present sources and uses of available spendable financial resources during a given period. The fund balance is used as the measure of available spendable financial resources at the end of the period.

Under the modified accrual basis of accounting, revenues are recognized when measurable and available. Measurable means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Expenditures (including capital outlay) are recorded when the related liability is incurred, except for debt expenditures (principal and interest), as well as expenditures related to compensated absences which are reported when expense due.

C. Budgets and Budgetary Accounting

The District prepares a fiscal year's budget in accordance with applicable laws and regulations. The budget is prepared on the modified accrual basis of accounting, which is consistent with generally accepted accounting principles.

The annual budget is prepared and adopted by the Board of Commissioners. Once the budget is approved, it can be amended at the Function and Fund level only by the approval of a majority of the Board of Commissioners. Such amendments are presented to the Board at their regular meetings. All amendments are made before the fact and are reflected in the official minutes of the Board. Individual amendments noted were not material in relation to the original appropriations. All budget appropriation lapses at year-end. Encumbrance accounting is not used. There was no budget adopted for the special revenue fund. Generally accepted accounting principles and the Health and Safety Code do not require a budget for capital project funds.

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

D. Capital Assets

Capital assets, which include property, equipment and infrastructure assets, are reported in the applicable governmental column in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than \$ 5000 (amount not rounded) and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if actual historical cost is not known. Donated capital assets are valued at their estimated fair market value on the date of donation.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation expense is provided over the assets' estimated useful lives using the straight-line method of depreciation.

The estimated useful lives by the type of asset are as follows:

Assets	Years
Buildings	50 years
Vehicle	3-20 years
Equipment	3-20 years
Furniture and fixtures	3-20 years

Upon sale or retirement of capital assets, the cost and related accumulated depreciation are removed from the respective accounts and any resulting gain or loss is included in the results of operations.

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition. Upon sale of capital assets, the proceeds from sale of capital assets is included in the results of operations as other financing sources.

E. Long-term Debt

All long-term debt to be paid from governmental resources are reported as liabilities in the government-wide statements. The long-term debt consists primarily of bonds and lease payable.

Long-term debt for governmental funds is not reported as liabilities in the fund financial statements. The debt proceeds are reported as other financing sources and payment of principal and interest are reported as expenditures.

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

F. Equity Classifications

In the government-wide and proprietary fund financial statements, equity is classified as net position and divided into three components:

- *Net Investment In Capital Assets* – Net investment in capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- *Restricted Net Position* – Consist of net position with constraints placed on the use either (1) external groups such as creditors, grantors, contributors, or laws or regulation of other governments; or (2) laws through constitutional provisions or enabling legislation. Descriptions for the related restrictions for net position restricted for “other purposes” are described in the Notes to the Financial Statements (if any).
- *Unrestricted Net Position* – All other net position that do not meet the definition of “restricted” or “Net investment in capital assets.”

Governmental funds report fund balances in classifications based primarily on the extent to which the District is bound to honor constraints on the specific purposes for which amounts in the funds can be spent. Fund balance for governmental funds can consist of the following:

- *Nonspendable Fund Balance* – includes amounts that are (a) not in spendable form—such as inventory, prepaid amounts or long-term notes receivable, or (b) legally or contractually required to be maintained intact—such as a trust that must be retained in perpetuity. The “not in spendable form” criterion includes items that are expected to be converted to cash.
- *Restricted Fund Balance* – constraints placed on the use of resources are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional provisions or enabling legislation. Restriction may effectively be changed or lifted only with the consent of resource providers.
- *Committed Fund Balance* – amounts that can be used only be used for the specific purposes determined by a formal action of the District’s highest level of decision-making authority, the Board. Commitments may be changed or lifted by the District taking the same formal action that imposed the constraint originally.
- *Assigned Fund Balance* – comprises amounts intended to be used by the District for specific purposes that are neither restricted nor committed. Intent is expressed by (a) the District’s Board or (b) a body (e.g., a budget or finance committee) or official to which the District’s Board has delegated the authority to assign, modify, rescind amounts to be used for specific purposes. With the exception of the General Fund, this is the residual fund balance classification for all governmental funds with positive balances.
- *Unassigned Fund Balance* – the residual classification for the General Fund. It is also used to report negative fund balance in other governmental funds.

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 2: SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

F. Equity Classifications - Continued

In circumstances when an expenditure is made for a purpose for which amounts are available in multiple fund balance classifications, fund balance is generally depleted in the order of restricted, committed, assigned, and unassigned.

G. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Accordingly, actual results could differ from those estimates. Significant estimates included in the District's financial statements are the estimated useful lives of capital assets.

NOTE 3: PROPERTY TAX

Assessed values are determined annually by the County's assessor as of January 1, often referred to as the tax lien date. Secured taxes are due 50% on November 1 and 50% on February 1 and are delinquent if not paid by December 10 (for November) and April 10 (for February). Unsecured taxes are due upon receipt of billing and are delinquent if not paid by August 31. These taxes are secured by liens on the property being taxed. The term "secured" refers to taxes on real estate, land and buildings, while "unsecured" refers to taxes on personal property other than real estate, land and buildings.

Property taxes levied are recorded as revenue in the fiscal year of levy. Property taxes which cannot be recorded as current year revenues, in accordance with the modified accrual basis of accounting, are recorded as deferred revenues.

The County bills and collects property taxes and remits them to the District under the State authorized method of apportioning whereby all local agencies, including special districts, receive from the County their respective share of the amounts of ad valorem taxes collected.

NOTE 4: CASH AND INVESTMENTS

The cash balance of the District is pooled and invested by the County's Treasurer in the pooled cash investment program ("Pool") for the purpose of increasing earnings through investment activities. The County's pooled deposits and investments are regulated by California Government Code and by a County investment policy approved annually by the County Treasury Oversight Committee and the Board. At fiscal year end, the County provides the participants' the pooled investments' fair value, based on quoted market prices. The County allocates interest to the District based on the District's average daily cash balance relative to the entire Pool. The value of the participants' pool shares that may be withdrawn is determined on an amortized basis, which is different than the fair value of the participants' positions in the pool.

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 4: CASH AND INVESTMENTS - Continued

In addition, the County's investment pool is not rated by any of the credit rating agencies. The County's commingled pool consists of cash in bank, U.S. government and agency securities, corporate bonds, negotiable certificates of deposit, commercial paper, and deposits in the State's Local Agency Investment Fund. Additional information regarding the County's investment policy and cash and investments, including interest rate risk, credit risk, custodial credit risk categories, and maturities of the different categories of investments, can be found in the County's notes to the basic financial statements. Cash in banks are insured with the Federal Deposit Insurance Corporation (FDIC) upto \$250,000. These accounts are held within various financial institutions. The District invests in the Local Agency Investment Fund (LAIF). The fund is an investment pool managed by the California State Treasurer. The fair value of the District's position in the pool is the same as the value of its pool shares. Cash and investments at June 30, 2018 consists of the following:

	Carrying Amount	Fair Value
<u>Governmental Activities:</u>		
Major funds:		
General fund		
Cash with County Treasury	\$ 3,524,055	\$ 3,471,294
Cash in banks	456,569	456,570
Debt service		
Cash with County Treasury	572,091	563,526
Nonmajor fund:		
Special revenue		
Cash with County Treasury	183,102	180,360
Total Governmental Activities Cash and Investments	4,735,817	4,671,750
<u>Business-type Activities:</u>		
EWAS		
Cash in banks	32,754	32,754
LAIF	1,369	1,369
Total Business-type Activities Cash and Investments	34,123	34,123
Total Cash and Investments	\$ 4,769,940	\$ 4,705,873

Governmental Accounting Standards Board, Statement No. 31, "Accounting and Financial Reporting for Certain Investment and for External Investment Pools" establishes accounting and financial reporting standards for all investments held by governmental external investment pools. The statement requires governmental entities to report investments at fair value.

Based on the County's calculations, fair market value would change the District's cash balance and interest income by a decrease of \$52,761 for the General Fund, decrease of \$8,565 for the Debt Service Fund, and decrease of \$2,742 for the Special Revenue Fund. However, since the effect of the application of fair value, in this instance, is not material, the District's cash and investments account is stated at cost.

A. Bonds Payable

On September 12, 2000, the District issued the Election of 2000 General Obligation Bonds, Series A, to finance the renovation, construction and acquisition of District facilities and property. The bond issue consists of \$2,455,000 Current Interest Serial Bonds with interest ranging from 4.1% to 5% and \$3,518,736 of 5.3% to 5.8% Capital Appreciation Serial Bonds, maturing on September 01, 2030.

As of June 30, 2018, the outstanding principal balance amounted to \$2,951,159. The annual requirements to amortize the bond payable, including interest payment are as follows:

Year ended June 30,	Principal	Interest	Total Debt Service
2019	\$ 207,894	\$ 342,106	\$ 550,000
2020	209,303	380,697	590,000
2021	214,533	430,467	645,000
2022	214,338	480,662	695,000
2023	218,655	531,345	750,000
2024-2028	1,145,732	3,614,268	4,760,000
2029-2031	<u>740,704</u>	<u>3,139,296</u>	<u>3,880,000</u>
Total	<u>\$ 2,951,159</u>	<u>\$ 8,918,841</u>	<u>\$11,870,000</u>

B. Lease Refunding Payable

On January 30, 2013, the cost of the construction and improvement of the District fire station, was refinanced from Capital One Public Funding, LLC into the 2013 Lease Refunding in the amount of \$2,097,148 at an effective interest rate of 4.25% with first option call on February 01, 2023 and finally maturing on February 01, 2031. Terms include semi-annual payments of \$83,938 (except for the first payment of \$84,185) every February 1 and August 1, commencing on August 01, 2013.

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 7: LONG-TERM DEBT - Continued

As of June 30, 2018, the outstanding principal balance amounted to \$1,663,547. The annual requirements to amortize the Lease Refunding payable, including interest payment are as follows:

Year ended June 30,	Principal	Interest	Total Debt Service
2019	\$ 98,207	\$ 69,668	\$ 167,875
2020	102,425	65,450	167,875
2021	106,825	61,051	167,876
2022	111,413	56,463	167,876
2023	116,198	51,677	167,875
2024-2028	660,284	179,094	839,378
2029-2031	<u>468,195</u>	<u>35,432</u>	<u>503,627</u>
Total	<u>\$ 1,663,547</u>	<u>\$ 518,835</u>	<u>\$ 2,182,382</u>

As of June 30, 2018, the governmental activities' capital assets and accumulated depreciation under capital lease are as follows:

Building	\$ 5,190,521
Less: Accumulated depreciation	<u>1,245,725</u>
Net book value	<u>\$ 3,944,796</u>

NOTE 8: OTHER POST EMPLOYMENT BENEFITS (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

Generally accepted accounting principles require that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date	June 30, 2016
Measurement Date	June 30, 2017
Measurement Period	June 30, 2016 to June 30, 2017
Fiscal Year Ended	June 30, 2018

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 8: OTHER POST EMPLOYMENT BENEFITS (OPEB)-Continued

Plan Description

The District provides continuation of medical, dental, vision and long term care coverage for a closed group of retired employees. These benefits create the following types of OPEB liabilities:

Explicit subsidy liabilities: An “explicit subsidy” exists when the employer contributes directly toward retiree premiums. The District contributes directly toward the medical plan premiums for retirees. These benefits are described in Section 2A. The Patient Protection and Affordable Care Act (ACA) includes a 40% excise tax on high-cost employer-sponsored health coverage. Any portion of such future excise tax paid by the employer is also a form of explicit subsidy.

Implicit subsidy liabilities: An “implicit subsidy” exists when the premiums charged for retiree coverage are lower than the expected retiree claims for that coverage. In the CalPERS medical program, the same monthly premiums are charged for active employees and for pre-Medicare retirees. CalPERS has confirmed that the claims experience of these members is considered together in setting premium rates. However, Paragraph 3.7.7.c.1 of Actuarial Standard of Practice No. 6 (ASOP 6), Measuring Retiree Group Benefits Obligations, provides for the actuary to use the pooled health plan premiums in lieu of projected retiree claims if the analysis to be prepared only calls for a short-term projection. We believe the short period until Medicare for a few retirees under this program satisfies the exception described above. We believe no implicit liability exists with respect to dental, vision or long term care (with age-banded premiums) coverage provided to retirees, or that it is insignificant.

The District’s funding policy affects the calculation of liabilities by impacting the discount rate that is used to develop the plan liability and expense. “Prefunding” is the term used when an agency consistently contributes an amount based on an actuarially determined contribution (ADC) each year. GASB 75 allows prefunded plans to use a discount rate that reflects the expected earnings on trust assets. Pay-as-you-go, or “PAYGO”, is the term used when an agency only contributes the required retiree benefits when due. When an agency finances retiree benefits on a pay-as-you-go basis, GASB 75 requires the use of a discount rate equal to a 20-year high grade municipal bond rate.

District Contributions to the Plan

District contributions to the Plan occur as benefits are paid to retirees and/or to the OPEB trust. Benefit payments may occur in the form of direct payments for premiums and taxes (“explicit subsidies”) and/or indirect payments to retirees in the form of higher premiums for active employees (“implicit subsidies”). Benefits paid by the District during the measurement period and those made in the year following the measurement period but prior to the end of the fiscal year are shown below:

<u>Employer contribution subsequent to the measurement date</u>	<u>2018</u>
Employer contribution to the trust	\$ -
Employer contribution in the form of direct benefit payments	83,480
Implicit contributions	<u>-</u>
Total employer contribution subsequent to the measurement date	<u>\$ 83,480</u>

NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 8: OTHER POST EMPLOYMENT BENEFITS (OPEB)-Continued

Net OPEB Liability

The District's net OPEB liability was measured as of June 30, 2017 and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation dated June 30, 2016 that was rolled forward to determine the June 30, 2017 total OPEB liability, based on the following actuarial methods and assumptions:

	Actuarial Assumptions
Valuation Date	June 30, 2016
Funding Method	Entry age normal cost, Level percent of pay
Assets valuation method	Market value of assets (\$0; no OPEB trust has been established)
Discount rates	3.56% as of June 30, 2017, 2.92% as of June 30, 2016
Participants valued	Only current retired participants and covered dependents are valued. This plan is closed to future entrants.
Salary increase	Not applicable; there are no active employees in this plan.
Assumed Wage Inflation	Not applicable; there are no active employees in this plan.
General Inflation Rate	2.75% per year

(The basic mortality rates used in this valuation are based on the rates published in the January 2014 CalPERS Experience Study. We adjusted the rates published by CalPERS to back out 20 years of Scale BB to central year 2008 and then applied the mortality improvement described below.)

Discount Rate

The discount rate used for the fiscal year end 2018 is 3.56%. Healthcare Cost Trend Rate was assumed to start at 7.0% and grade down to 5% for years 2022 and thereafter. The impact of a 1% increase or decrease in these assumptions is shown in the chart below.

<u>Change in discount rate</u>	<u>Discount Rate-1% (2.56%)</u>	<u>Current Discount Rate 3.56%</u>	<u>Discount Rate+1% (4.56%)</u>
Total OPEB liability	\$ 1,932,006	\$ 1,687,894	\$ 1,491,500
Increase (Decrease)	244,112	-	(196,394)
% Increase (Decrease)	14.5%	-	(11.6)%
Net OPEB liability (assets)	1,932,006	1,687,894	1,491,500
Increase (Decrease)	244,112	-	(196,394)
% Increase (Decrease)	14.5%	-	(11.6)%

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 8: OTHER POST EMPLOYMENT BENEFITS (OPEB)-Continued

Sensitivity of Liabilities to Changes in the Discount Rate and Healthcare Cost Trend Rate

The discount rate used for the fiscal year end 2018 is 3.56%. Healthcare Cost Trend Rate was assumed to start at 7.0% and grade down to 5% for years 2022 and thereafter. The impact of a 1% increase or decrease in these assumptions is shown in the chart below.

<u>Change in Healthcare cost trend rate</u>	<u>Current Trend - 1%</u>	<u>Current Trend</u>	<u>Current Trend + 1%</u>
Total OPEB liability	1,484,984	1,687,894	1,948,642
Increase (Decrease)	(202,910)	-	260,748
% Increase (Decrease)	-12%	-	15.4%
Net OPEB liability (assets)	1,484,984	1,687,894	1,948,642
Increase (Decrease)	(202,910)	-	-
% Increase (Decrease)	-12%	-	15.4%

Recognition of Deferred Outflows and Deferred Inflows of Resources

Gains and losses related to changes in total OPEB liability and fiduciary net position are recognized in OPEB expense systematically over time. Amounts are first recognized in OPEB expense for the year the gain or loss occurs. The remaining amounts are categorized as deferred outflows and deferred inflows of resources related to OPEB and are to be recognized in future OPEB expense. The recognition period differs depending on the source of the gain or loss:

Net difference between projected and actual earnings on OPEB plan investments	5 Years
All other amounts	Expected average remaining service lifetime (EARSL) (6.0 Years at June 30,2017)

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

The exhibit below shows deferred resources as of the fiscal year ended June 30, 2018

	<u>Deferred Outflow of Resources</u>	<u>Deferred Inflow of Resources</u>
Changes of assumptions	\$ -	\$ -
Difference between expected and actual experience	-	-
Net difference between projected and actual earnings on investment	-	-
Contribution made subsequent to the measurement date	<u>83,480</u>	<u>-</u>
Total	<u>\$ 83,480</u>	<u>\$ -</u>

**SARATOGA FIRE PROTECTION DISTRICT
NOTES TO THE FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2018**

NOTE 8: OTHER POST EMPLOYMENT BENEFITS (OPEB)-Continued

The \$83,480 reported as deferred outflows of resources related to contributions subsequent to the June 30, 2017 measurement date will be recognized as a reduction of the net OPEB liability during the fiscal year ending June 30, 2019. Other amounts reported as deferred outflows of resources related to OPEB will be recognized as expense as follows:

<u>For the fiscal year ended</u>	<u>Recognized net outflow (inflow)</u>
2019	\$ -
2020	-
2021	-
2022	-
2023	\$ -

NOTE 9: NET POSITION RESTATEMENT

A prior period adjustment of \$1,583,584 has been reflected in the District's net position to record the net OPEB asset/liability, deferred outflows/inflows, and adjusted OPEB expense and net position in accordance to GASB 75

Beginning net position as previously reported at June 30, 2017		\$ 3,809,825
Net OPEB liability as per GASB-75 (measurement date)		(1,877,836)
Less: OPEB Liability previously recorded		<u>200,708</u> (1,677,128)
Deferred outflow-County's contribution made during the fiscal year 2017		<u>93,544</u>
Total prior period adjustment		<u>(1,583,584)</u>
Net position, June 30, 2017- <i>Restated</i>		<u><u>\$ 2,226,241</u></u>

NOTE 10: SUBSEQUENT EVENTS

The District has evaluated operations for the period of time from its year end June 30, 2018 through October 30, 2018, the date the financial statements were available to be issued and have determined that no adjustments are necessary to the amounts reported in the accompanying financial statements nor have any subsequent events occurred, the nature of which would require disclosure.

COMPLIANCE SECTION

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND
ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF
FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
GOVERNMENT AUDITING STANDARDS**

To the Board of Fire Commissioners of
Saratoga Fire Protection District
Saratoga, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, and each major fund of Saratoga Fire Protection District (the "District"), as of and for the year ended June 30, 2018, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated October 30, 2018.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
